

Sze Yee (Michelle) Leong

*Dedication, creativity, efficiency, positivity,
self-driven and high interpersonal skills
are primer strengths I bring to a team. I can work both
as a team player or a humble leader in a team. I am very
productive when it comes to work, finding the best way to get
the work done in a specific time frame while producing a high
quality design is my main ambitions.*

*I am curious about human actions and behaviours in relation to space. I am also
keen about the relationship between human, nature and space.*

//

*An aspiring individual who persistently question :
How machines can improve life in this new machine-age?
How does space evokes memories of oneself and assist in preserving memories?
How architecture co-exist with human, nature and machines?*
